#### **Matters Arising:**

New Business Development - moved to Chairman's Report Te Pua Reserve - moved to General Business Mutton - moved to General Business

#### **Chairman's Report**

The Chairman spoke to the 2017 report.

Key discussion points arising:

**Strategic Plan** - One of the key focuses is that the Incorporation seeks to develop and manage a balanced portfolio of business interests, to support the delivery of benefits to shareholders.

**Financial** - Shareholders are aware that the Incorporation's main source of income is from the farms, this is until the harvesting of the forest recommences. The Incorporation has managed to pay off all the remaining debt from the fish farm. This means there is no long-term debt which will enable the incorporation to look into other business opportunities and ventures.

**Forestry** – It is explained that the incorporation has been looking at options to develop income off the forests including harvesting within the next four years as opposed to eight years as previously stated and the possibility of harvesting windbreaks and shelterbelts. There were concerns from shareholders regarding both these options. There were concerns with the quality of timber when harvesting earlier and with the effects on the rest of the forest and farms if windbreaks and shelterbelts were harvested. The Incorporation explained that all these factors will be taken into account. Shareholders question where the Forestry Manager was, it was explained that the previous forestry manager had been working outside of his delegated authority his resignation was received and accepted.

**Farm** - There has been a major focus on upskilling current staff and develop our own people. It is the Incorporation's intention to be able to utilise our own people to provide specialists services rather than contracting in outsiders. There have also been significant developments across all areas of farming including soil and pasture, fencing and water reticulation.

**Apiculture** - The Incorporation has teamed up with Kauri Park Nurseries Ltd to develop a medium-term apiculture venture. Kauri Park have been able to provide us with Apiculture knowledge and a consistent supply of native plants and trees. The Incorporation has recently started an environmental programme to not only protect our waterways but to also enhance our apiculture and tourism sectors. There have been 110,000 native trees planted this year and the incorporation have appointed a beekeeper to work alongside of Kauri Park.

Shareholders have concerns around the different types of trees that are being brought from outside our area and the effect these trees will have in our area. There is a suggestion that the Incorporation should look into creating a nursery locally and using our seeds to use for replanting.

**Takutai Moana -** Earlier this year the Incorporation submitted an application to the Crown and High Court seeking recognition of the foreshore and seabed interests of Pārengarenga shareholders and associated iwi. The Incorporation have been in discussions with Te Runanga Nui o Te Aupōuri Trust. The Incorporation have agreed to apply for customary title and will leave the management up to the Runanga and that the Runanga can apply for customary title.

There was a lot of debate regarding whether or not the Incorporation is an iwi organisation. Shareholders were concerned that the Incorporation was overstepping its authority by calling itself an "iwi" organisation. Shareholders explained that Te Runanga Nui o Te Aupōuri was mandated by iwi members as the single Te Aupōuri iwi authority and although the majority of Incorporation shareholders were of Te Aupōuri descent, the Incorporation itself is not an iwi organisation. It was explained that the Incorporation was there to speak for shareholders and not an entire iwi.

4. THAT shareholders endorse the Pārengarenga Incorporation Takutai Moana application for Customary Title and that we continue to pursue the application and work with Te Runanga Nui o Te Aupōuri Trust.

Moved by Chad Paraone

Seconded by Heta Conrad

#### Carried

For 39 Against 12

5. THAT the Chairman's annual report of 2017 be adopted.

Moved by John Tahana

Carried

#### **Appointment of Auditor and Share Valuer**

7. THAT PKF Francis Aickin Limited Chartered Accountants of Kaitaia be retained as Auditors for the Pārengarenga A Incorporation for the 2017/2018 financial year.

Moved by Clayton Wiki

Seconded by Jane Tahana-Allan

Carried

 THAT BDO Northland, Chartered Accountants of Kerikeri be appointed Share Valuers for the Pārengarenga A Incorporation for the 2017/2018 financial year.

Moved by Ngainanga Kapa

Seconded by Maringinoa Woods

Carried

#### **Election of Members to the Management**

There are two positions available and three eligible nominated candidates, those being Pereniki Conrad, Clayton Wiki and Kingi Wiki.

 THAT Josephine Howearth is hereby appointed as the Returning Officer.

Moved by Ngainanga Kapa

Seconded by Rosie Conrad

Carried

 THAT Rangimarie Rameka and Celine Matiu are hereby appointed as Scrutineers

Moved by Winiata Brown

Seconded by Nicola Karena

Carried

The results of the election of members to the management committee are:

Clayton Wiki	32 votes
Pereniki Conrad	23 votes
Kingi Wiki	15 votes

The Chairperson declared that Clayton Wiki and Pereniki Conrad are appointed as Committee of Management members for Pārengarenga Incorporation. There were concerns regarding the low number of votes returned and the high number of invalid votes received. The committee members agreed that this was a concern and would be looking into these matters.

#### **General Business**

**Te Pua Reserve - T**here were concerns from shareholders regarding access to both Te Pua and Pārengarenga Harbour.

Previously shareholders had directed the Incorporation to block access to all commercial fishermen, but recreational fishing had never been addressed. Access to Te Pua is granted by keys being made available at the Te Kao Local Store. The store owner explained that it isn't an easy job for shop staff to distinguish who are commercial fishermen and how many people are gaining access from one key.

There were on-going concerns from shareholders regarding the lack of facilities available at Te Pua. It had been explained earlier that the Incorporation was undertaking major conservation work including planting around waterways and the harbour in order to reduce runoff from farms and forest and yet there was no plan in place to reduce address the lack of toilets at Te Pua despite the number of campers there on an annual basis.

The Incorporation agreed that this is a major concern and that they will have to look into this matter further. It was suggested that until the Incorporation is able to come up with a process on how to manage the access to Te Pua that shareholders will be happy with that they would look into uplifting all keys from the shop.

It was agreed that access to the harbour was a community issue and that a hui should be called between both the Te Kao and Te Hapua communities to create a working party to address the management of the harbour.

**Bluff Access** - There was a discussion around the access to the bluff. For many years there has been access to the bluff via Te Ahu Road through a gate on the Kaipo whanau land and then onto Pārengarenga forest roads. The Kaipo whanau had explained that this access was an agreement between the whanau and the Incorporation and this was only meant to be a temporary. They also explained that the traffic over the years have increased and people access the gates at all times of the day and night. The Incorporation explained that it was the right of any whanau to make decisions on their own land.

A representative from the Subritzky whanau spoke to the hui and explained that they would be willing to look at access through their land. There were concerns raised regarding having to use private land to access the bluff. It was explained that the Incorporation should be looking at access through their own land and not relying on private land owners.

**Mutton** - Shareholders questioned the inconsistent availability of mutton to shareholders. It was explained that shareholders will be able to purchase one mutton per shareholder household over the Christmas period.

#### Setting of the next Annual General Meeting Date and Closing

## **Chairman's Report 2018** *Te Rīpota o te Heamana*

E rau rangatira mā, tēnā rā koutou katoa.

2017-18 was another busy year for Pārengarenga Incorporation, with its fair share of opportunities, challenges and change. On balance, it has been a good year – from both a financial and development perspective. We ended the year with the finances in good shape and have undertaken a lot more analysis and sifting through options throughout the year as we push forward with the farming, forestry and apiculture businesses.

"...continued growth in our net assets and cash flow is enabling us to explore, invest and develop the business. We've set ourselves a goal of distributing \$1million every year to our shareholders and local community by 2030..."

Mr Chad Paraone, Committee of Management - Chairman

As well as navigating personnel changes and adoption of new approaches, we've continued investigation of exciting new innovations, including in the biochar space, and committed more resource to growing our health & safety, business development, and local employment.

#### Financial Pūtea

I am pleased to report that the Incorporation made an overall net profit after tax of \$1.42 million for the 2017/18 year, and that our Balance sheet has strengthened, with net assets increasing to \$65 million, up from \$52 million the previous year.

These results reflect good performance from the farm (Pārengarenga Station), the sale of our remaining carbon credits, and an increase in the value of our Pārengarenga forest.

Pārengarenga Station delivered a net profit before taxation of \$1.36 million (a significant improvement over the \$532,000 profit achieved the previous year), for which the entire farm team and advisors should be congratulated.

We have also built up cash in the bank, giving ourselves the ability to explore and develop new opportunities and ventures – including on-farm developments, forestry operations, apiculture, biochar and the like.

A consolidated set of accounts are provided in this AGM book. A copy of the full set of accounts are available to Parengarenga shareholders through the office.

#### Strategic Direction

We undertook a strategic review in March 2018 and re-affirmed the long-term direction and goals set the previous year. There was a change to the 'Big Hairy Audacious Goal' we set ourselves. It is now much more specific to shareholders and the local community:

.....

"By 2030, we will give back to our community \$1million every year [earned by selling our premium brands to the world]".

Don't worry, we will deliver financial benefits to shareholders much sooner than that! This is simply stating the scale of our longer-term ambition. Our 3-year goals and annual plan have been shaped to deliver on this goal. This means we've got to

successfully grow our farming and forestry businesses, as well as

our interest in beekeeping, horticulture and tourism.

#### Forestry Ngahere

Progress with our forestry plans was slower than we hoped, but we are in good shape. We initiated harvesting of the woodlots across the farm, which were planted many years ago as windbreaks and shelterbelts. This provided an additional source of revenue to meet other forestry costs. We are partway through that programme, which has delivered a positive cashflow. It will continue over the next summer and will be followed up with further plantings of Mānuka and other natives.

"...our direct involvement with harvesting and marketing the farm woodlots, plus the windbreak investigations, has grown our forestry management experience and puts us in a good position to grow our own operations..."

Mr Rihari Wiki, Committee of Management - Forestry

-----

During the year, we completed our forest estate modelling work and established some additional accessways into the windbreak zone that runs up alongside the Pārengarenga forest (on the west coast). We canvassed several domestic market customers and initiated supply and pricing discussions in readiness for access to

thinnings and harvested wood from this forest. That work has provided a solid foundation for us to now move forward with our own forestry operations.

We started the year with a new Forestry Manager, a role which did not work out for us, so we re-shaped the approach and are now pursuing a second option, which includes the potential to bring those thinning and harvesting operations in-house (as a more cost-effective approach).

#### Farming Pāmu

We bid farewell to Duanne Golley and whānau during the year, after many years of dedicated service to the Incorporation (he has turned his eye to helping Te Roroa with their beef farming operation). A re-jigged farm team saw our senior farm staff step up and embrace greater responsibilities and a team approach in the management and operation of the farm. The results speak for themselves. Our stock have done well, a direct tribute to the capability of our farm staff.

The farm team spent a good part of the year assessing its performance against industry standards and identifying opportunities for "best use of land". This has been an interesting start for our journey. Throughout the year, we completed a significant soil sampling/testing programme across the farm and have analysed the current capability of our soil and pasture. The development of a drainage plan for a major part of Steamers Point is a direct result of that analysis, with more to come.

"...our senior farm staff have really stepped up in leading Pārengarenga Station operations. Combined with insight from the 'best use of land' work and our extensive soil testing programme, we're well placed to advance our farming business..."

Mr Pereniki Conrad, Committee of Management – Farming.

Much of the farm land taken up in gullies and catchment areas has been planted out in Mānuka and we will continue this strategy as part of our intention to trap any sediment or nutrient run off from our lands and as part of our cross-sector farming developments (i.e. progressing multiple initiatives on the same farm land).

Generally speaking, market pricing for beef and lamb remain relatively buoyant and at this stage we have no immediate concerns about any short to medium term change. The tender system we adopted the previous year for purchases and sales has served us well. We will continue to farm Angus/Charolais beef, Friesen Bulls and Texel/Dorsett sheep. We remain connected with the Te Hiku Red Meat Farming collaboration and the Extension 350 programme, which aims to help improve farm performance, although our prime focus has been on analysing our best use of land and options to date.

#### Apiculture (bees) Miere

Our relationship continued with Kauri Park Nurseries Ltd, in terms of growing our Mānuka plantings, increasing hives on our land, and growing our bee-keeping knowledge. Phyllis Kapa is pivotal in her role as our very own beekeeper and will see her work grow along with the additional 220,000 mānuka trees we planted in 2018 (a total of 320,000 planted in the last 2 years). The plantings boost our efforts to protect water quality and increase our opportunities around bees, honey and so forth. This year we were able to get more hives on the ground (380), growing this new revenue stream for the Incorporation.

"...we are growing our in-house knowledge and exceeding targets on trees planted and hives placed, a great start in this new business area..." Mr Clayton Wiki, Committee of Management – Business

Development

#### Other Ērā Atu

. . . . . . . . . . . .

Our investigations continued into the opportunities offered from producing and using **biochar** from our waste pine wood. We've delved deeper into this area and are excited by the potential benefits to our soil structures, reduction of traditional fertiliser use for biochar-based alternatives, and resulting water quality improvements. On the strength of the learnings to date, we have committed to moving to a small-scale testing programme over the coming year assisted by AgResearch, Callaghan Innovation and Scion, three of New Zealand's leading research institutions.

The **share register amalgamation** process is still awaiting sign off from the Maori Land Court. Unfortunately, the passing of Judge Ambler, who was handling our case, has delayed the process even more. We continue to press for action from the Court.

Our application for recognition of the foreshore and seabed interests of Pārengarenga shareholders and associated iwi has not progressed far, as the Crown/High Court work through the process across all 300 **Takutai Moana** applications. An initial High Court case management conference was held in June this year. We expect the next round of conferences will not take place until June next year.

In closing, I would like to once again thank the committee of management for the time and commitment made by each to the Incorporation throughout the year. Special thanks to Allie Wiki, Ngainanga Kapa and Pereniki Conrad for being there on the ground and putting in the extra time and effort. A big thanks to Jon Brough, our GM, who has wrestled with the challenges and brought a discipline and greater degree of analytical grunt to the Incorporation game. Under Jon's management, we've been able to extract greater value from our current asset base this past year and gear Pārengarenga for the next stage of growth.

There are others in the community who have contributed to the Incorporation, and we are grateful for your support.

To the farm team, Phyllis, Gillian and Nik in office, Angela and the BDO team, and our other business partners and advisors, e mihi

ana ki a koutou katoa. Thank you for your efforts and backing throughout 2017/18. Finally, it is a pleasure to welcome both Maria Wiki (Business Development Supervisor) and Mike Wikitera (Workplace Supervisor – Health & Safety /Training) to the team, bringing a focus on these critical areas for the Incorporation.

Nō reira, e tātou mā, I trust this report gives you confidence in the performance and direction of your Incorporation and welcome all shareholders to the AGM. Nau mai, haere mai ki tō tatou hui-a-tau, a te 24 Nōema, ki Pōtahi Marae, Te Kao.

Nāku iti noa,

Konone

Chad Paraone, Chairman

### Notes to the Consolidated Financial Statements Pūrongo Pūtea Panui

#### Pārengarenga Incorporation For the year ended 30 June 2018

#### **1. Statement of Accounting Policies**

#### **Reporting entity**

Pārengarenga Incorporation ("the group") comprises of Pārengarenga B3C Trust, Pārengarenga A Incorporation and its subsidiary Pārengarenga Fishfarm Limited. Pārengarenga A Incorporation and Pārengarenga B3C Trust are Maori incorporations established under Te Ture Whenua Maori Act 1993. The group holds a 96.71% interest in Pārengarenga Fishfarm Limited being a limited liability company established under the Companies Act 1993.

#### **Basis of preparation**

These consolidated financial statements have been prepared in accordance with Special Purpose Framework for use by For-Profit Entities (SPFR for FPEs) published by the New Zealand Institute of Chartered Accountants. The Trustees/Directors have determined that this is the most appropriate reporting framework. They are a for-profit entity, not required under legislation or constitution to prepare general purpose financial reports therefore are eligible to elect to apply the NZICA special purpose framework.

The financial statements have been prepared for:

- the entity's owners;
- Inland Revenue; and
- the entity's financiers.

#### Nature of business

The incorporation is engaged in Farming / Leasing / Forestry. The nature of the incorporation's business has not changed during the year under review.

#### Historical cost

These consolidated financial statements have been prepared on a historical cost basis, except for certain assets which have been revalued as identified in specific accounting policies below. Reliance is placed on the fact that the business is a going concern.

Accrual accounting is used to recognise expenses and revenue when they occur.

#### Changes in accounting policies

There have been no changes in accounting policies. All accounting policies have been applied on bases consistent with those used previous years.

#### Accounts receivable

Accounts receivable are stated at expected realisable value, after providing against debts where collection is doubtful. Bad debts are written off during the period in which they are identified. Included in the accounts receivable is an amount of \$1,350 relating to Licences to Occupy that has been long outstanding. The Trustees are still continuing to pursue the repayment of this debt.

#### **Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable for the sale of goods and services, to the extent it is probable that the economic benefits will flow to the incorporation and revenue can be reliably measured.

Sales of goods and livestock are recognised when the entity has transferred the significant risk and rewards associated with ownership of goods to the customer.

Lease income is recognised on a straight line basis over the life of the lease.

Forestry income is recognised on sale or harvest of the forest.

Interest received is recognised as interest accrues, gross of refundable tax credits received.

Dividends received are recognised on receipt, net of nonrefundable tax credits.

Government grants are recognised as revenue on receipt where no performance conditions have been specified on receipt of the grant.

Royalty revenue is recognised on receipt.

#### Livestock

Livestock is measured at Herd & NSC values as issued by Inland Revenue. Change in Herd Scheme Value gains and losses are recognised in the livestock revaluation reserve. If the revaluation reserve has a deficit for a type of livestock, that deficit is recognised in the Statement of Profit or Loss in the period that it arises. Any revaluation surplus that reverses previous revaluation deficits in subsequent periods is recognised as revenue in the Statement of Profit or Loss. The gains or losses due to livestock number changes are recorded directly in the Statement of Profit or Loss.

#### **Functional currency**

The financial statements are presented in New Zealand dollars (NZ\$) and all values are rounded to the nearest NZ\$, except where otherwise indicated.

### Investments Whakangao

Investments in subsidiaries are recognised at the lower of cost or net asset backing. Increases in fair value are recognised in the asset revaluation reserve, decreases in fair value are recognised in the asset revaluation reserve to the extent that there is a reserve balance in relation to the asset. If the fair value of the asset falls below cost this is recorded as an impairment in the profit and loss.

Shares have been revalued to current market values.

	Quantity	Cost	Year Purchased	Market Value
Balance Agri-Nutrients	32,097	\$193,038	1997-2008	\$259,986
SFF Ltd - Ordinary	33,694	\$47,117	2009-2010	\$17,521
Farmlands	11,548	\$11,548	1997-2010	\$11,548

#### **Issue Capital**

2017 1,146,766 ordinary shares, fully paid (2017: 1,146,766) 32.345.456 32.345.456 3,261,000 ordinary shares,fully paid (2017: 3,261,000) 4,465,716 4,465,716

### **Financial instruments** Ngā Hohoko Pūtea

#### **Financial Assets**

At initial recognition the incorporation determines the classification of financial assets as either held at fair value, cost or amortised cost. Financial assets are initially measured at fair value, estimated at the transaction price less any associated transaction costs.

#### Amortised cost

Amortised cost includes assets where the incorporation intends to earn contractual cash flows in the nature of principal and interest payments. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired, as well as through the amortisation process.

#### Cost

Equity instruments are classifed as held at cost. Assets are stated at cost less any accumulated impairment loss. Gains and losses are recognised in profit or loss when the assets are derecognised or impaired.

#### Fair value

Financial assets not held at amortised value or cost are held at fair value and include financial derivatives such as forward contracts and interest rate swaps. Assets are subsequently measured at fair value only when the fair value of the instrument can be reliably measured based on a quoted price for an identical asset in an active market. Where no active market price is available the instrument shall be measured at prior year's fair value less any accumulated impairment loss.

Increases in fair value are recognised in the asset revaluation reserve, decreases in fair value are recognised in the asset revaluation reserve to the extent that there is a reserve balance in relation to the asset. If the fair value of the asset falls below cost this is recorded as an impairment in the profit and loss.

#### **Financial Liabilities**

Financial liabilities, including borrowings and bank overdrafts, are initially measured at fair value net of transaction costs and are subsequently measured at amortised cost using the effective interest method.

2018

Interest expenses are recognised in profit or loss on an effective vield basis.

#### **Intangible Assets**

Intangible assets include ETS carbon credits and are carried at cost.

#### **Exceptional items**

Exceptional items are large income and/or expense items that do not arise as a result of normal business operations and are not expected to recur. Exceptional items are disclosed separately in the statement of profit or loss where the total value exceeds 5% of revenue.

#### Goods and services tax

The financial statements are stated exclusive of goods and services tax (GST) except for accounts receivable and accounts payable, which are stated inclusive of GST. The entity is group registered for goods and services tax (GST).

#### **Comparative figures**

The comparative figures shown are for a twelve month period.

This statement should be read with the Auditor's Report and the Notes to the Financial Statements.

#### Property, Plant & Equipment

Property, plant and equipment are stated at historical cost less any accumulated depreciation and impairment losses. Depreciation is provided at the maximum rates permitted by the Income Tax Act 2007.

Land and Buildings vested to Pārengarenga A Incorporation under the Te Ture Whenua Maori Act 1993 have been revalued to the Government valuation dated 2017 as specifically allowed by the NZICA SPFR standards. The transfer of the land as freehold property is for a total land area of approximately 6.248 hectares, with the date of transfer (with no consideration) being 14 March 1965. Valuations take place with intervals no greater than 5 years.

Depreciation is calculated on a diminishing value basis over the estimated useful life of the asset using depreciation rates published by Inland Revenue. Assets estimated useful life is reassessed annually. The following estimated depreciation rates/useful lives have been used:

Land vested to the Pārengarenga B3C Trust under the Te Ture Whenua Maori Act 1993 has been revalued to the government valuation dated 2017. The transfer of the land as freehold property is for a total land area of approximately 9,842 hectares, with the date of transfer (with no consideration) being 16 August 1991. The total land area relating to the B3C freehold farms (included in the above) is 5,805 hectares. The Maori Land Court has approved the portioning out to approximately 257.7 hectares known as Ngatekawa included in the above total.

Buildings transferred from the Maori Trustee (1992) have been valued at their 1992 insurance indemnity value less depreciation. Allowance has been made for the revaluation of improvements to the valuation dated 2017.

The total pastoral area of Pārengarenga B3C Trust is 4,288 hectares, and has a valuation (2017) of \$13,900,000.

#### **Exceptional items**

Exceptional items are large income and/or expense items that do not arise as a result of normal business operations and are not expected to recur. Exceptional items are disclosed separately in the statement of profit or loss where the total value exceeds 5% of revenue.

#### Goods and services tax

The financial statements are stated exclusive of goods and services tax (GST) except for accounts receivable and accounts payable, which are stated inclusive of GST. The entity is group registered for goods and services tax (GST).

#### **Comparative figures**

The comparative figures shown are for a twelve month period.

#### 2. Prior Period Adjustment

The impairment of Fishfarm assets in 2017 was not eliminated on consolidation (refer note 12). This had the following effect: Impairment expense overstated \$182,463 in 2017 and assets understated \$182,463 in 2017.

P • 18

## **Pārengarenga A Incorporation's Share Valuation** *Ngā Hea Wāriu o Pārengarenga A Inc*

#### Statement Pursuant To Section 278(4) Of Te Ture Whenua Maori Act 1993

The Pārengarenga A Incorporation valuation includes the net assets of:

#### (i) Forestry & Leasing

The valuation has been prepared on the net asset position in the audited financial statements as at 30 June 2018.

#### **Asset Valuation**

The method of valuation of fixed assets is as follows:

(a) Land & Improvements - 2017 government valuations

(b) Other fixed assets (including plant) - cost less accumulated depreciation

(c) Tree crop valuation - independent market value undertaken as at 30 June 2018

#### **Share Valuation**

Value Per Share	\$10.46
Net Assets per Share	\$10.46
Number of Shares	3,261,000
Total Net Assets	\$34,138,268
Pārengarenga A Incorporation	\$34,138,268

## **Pārengarenga B3C Trust's Share Valuation** Ngā Hea Wāriu o Pārengarenga B3C

#### Statement Pursuant To Section 278(4) Of Te Ture Whenua Maori Act 1993

The Pārengarenga B3C Trust valuation includes the net assets of:

(ii) Forestry Leasing and Royalties

(iii) Farming Operations

The valuation has been prepared on the net asset position in the audited financial statements as at 30 June 2018.

#### **Asset Valuation**

The method of valuation of fixed assets is as follows:

- (d) Land & Improvements 2017 government valuation
- (e) Buildings 2017 government valuation less accumulated depreciation
- (f) Other fixed assets (including plant) cost less accumulated depreciation

Livestock has been valued at the 2018 National Average Market Values released by the Inland Revenue.

#### **Share Valuation**

Value Per Share	\$28.00
Net Assets per Share	\$28.00
Number of Shares	1,146,766
Total Net Assets	\$32,112,669
Plus Livestock Closing Values (NAMV)	\$2,633,095
Less: Livestock Closing Values (NSC)	(\$1,504,270)
Pārengarenga B3C Trust	\$30,983,844

It must be recognised there are special factors governing the Pārengarenga Incorporation share values as there are several restrictions on the selling, purchasing and transfer of shares in Maori Incorporations (Section 264 and 268 of Te Ture Whenua Maori Act 1993).

Yours faithfully

A Edwards BBS C.A. Share Valuer

Dated: 24th October 2018

# Vision Tirohanga Whāioio

A compelling glimpse of the future

#### **Vision Statement**

He Umanga Māori nō te whenua me te moana, e rongonuitia ana huri noa te ao. E whakapakari ana i tō tātou iwi, me ngā hapori, me te waihanga noki i tetahi huarahi e anga mua ai ngā iwi o Te Hiku o te Ika.

A world class business of the land and sea, growing our people and communities, shaping the future of the Far North.

### Core Purpose Te Aronga

Pārengarenga He Puna Oranga E rahi e! Serving our wellbeing to the world.

### Core Values Ngākau Pono

- Te Pono ki te kaupapa.....integrity
- Te ū ki te kaupapa.....professionalism

- Wairuatanga .....spirituality
- Kotahitanga. ......unity, togetherness, solidarity, collective action
- Pūkengatanga ......teaching, preserving and creating Māori knowledge
- Kaitiakitanga.....guardianship, stewardship, trusteeship

### **Big Hairy Audacious Goal (BHAG)** *Tiro Tawhiti*

By 2030, we will give back to our community \$1m every year [earned by selling our premium brands to the world].

### **3 Year Goals**

- Maximise the profit potential of the existing businesses in Farming and Forestry.
- Set up a fully functioning, profitable Apiculture business.
- Complete a business plan for all Incorporation business sectors operating in our rohe.

## Key Capabilities Ngā Aheitanga

Farm	Forestry	Apiculture
Use of technology, farm management	Research and Development on optimisation	Starting from scratch
Enhanced water care	OSH	Threat management
Pasture improvement	Contract management	Feasibility study
Soil expertise	Consistent wood quality	JV management
Genetic improvement	Logging strategy	Hive management
General upskilling of workers	Pruning and thinning	General training
Environmental management	Relationship management	
Good advisory expertise	Species management	
Relationship management	Collaboration with iwi on processing and roading	
Animal welfare	General upskilling and training	
OSH	By-product management	

## Key Capabilities Ngā Aheitanga

Aquaculture	Tourism	Entire Incorporation
Feasibility study (ensure no clash with tourism)	Hospitality	Research on next business streams
Network with NZ industry	Market research	Governance – resource allocation and data management
Regulatory affairs	Network/relationship management	Organisational structure
NZTE – expert	Collaboration and JVs	Environmental management
Facilities management	Year-round facilities	Permanent office
Energy management	MICE	History/back story/ brand development
Nutrition	Site optimisation	OSH management
Species analysis and end use	R&D – feasibility studies	Technology management
	Activities – JVs	
	Roading - Council
